

The background of the cover features a blurred photograph of a desk with architectural blueprints, a pen, and a small wooden house model. A large, detailed line drawing of a modern multi-story building with balconies and large windows is overlaid at the bottom. The top of the image has a blue and grey geometric design.

TECHNICAL

PENWOOD 883 MD & AD SERIES

Profile Width: 80 mm

Number of chambers: 6 chambers system

Profile Class: B Class (TS EN 12608-1)

Seal Type: Triple seal system (External / Internal / Middle)

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 22, 24, 32-34, 42, 44, 48-50 mm

The thermal insulation Uf: 0,90W/m²K

Uw: 0,77 W/m²K

INSTRUCTION

- 80 mm profile system. Because of the composite profile extruded together, No need for extra metal reinforcement inside.
- No need for reinforcement cutting screwing unit and workman.
- Compared with metal reinforcement system profile, it has %30 more advantages with max heat-sound and water insulation.
- Just cut and weld. You do not need Metal Reinforcement and extra stock area for Metal Reinforcement.
- Possibility to install single 4-6 mm or double glazing 22, 24, 32 - 34, 42, 44, 48 - 50 mm with different thickness of glazing bead.
- It has water drainage channel, it can be directly drilled after cutting.
- Color range for laminated products.
- It's quality is accredited by national and international certificates.

W 888 SERIE

Profile Width: 80 mm

Number of chambers: 8

Profile Class: A-B Class

Seal Type: Triple seal system (External / Internal / Middle) and Double seal system (External / Internal)

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 22, 24, 32-34, 42, 44, 48-50 mm

The thermal insulation Uf: 0,90 W/m²K

INSTRUCTION

- 80mm profile system.
- Thanks to elastic grey and black seal which does not leave any stains profiles will be provided maximum air, water, dust and sound isolation.
- Thanks to 8 chambered profiles, it has maximum performance for thermal, sound and water isolation
- Possibility to install double or triple glazing (22, 24, 32-34, 42, 44, 48-50mm) with different thicknesses of glazing bead
- It has water drainage channel, it can be directly drilled after cutting
- Colour range for laminated products.
- It's quality is accredited by national and international certificates.

TECHNICAL

W 760 SERIES

Profile Width: 70 mm

Number of chambers: 5

Profile Class: B Class (TS EN 12608-1)

Seal Type: External / Internal double seal system

Seal Type and Color: TPE – Grey /Black

Glass Thickness (mm): 4, 20, 24, 30, 32 mm

The thermal insulation Uf: 1,45 W/m²K

INSTRUCTION

- The main profiles have 70 mm width.
- Because of the elastic grey and black seal which does not leave any stain on profiles will be provided maximum air, water, dust and sound isolation.
- Due to the 5 chambers profiles, it has maximum performance for thermal, sound and water isolation.
- It is a series of profiles with very special design that provides maximum wind resistance on high rise buildings.
- In addition to white profile a different laminated color range is available.
- 4-5 mm single glazing application of 20, 24, 28, 30, 32 mm glazing beads give us alternatives of using double, triple glazing and panels.

WO 60 SERIESS (101 SERIES)

Profile Width: 60 mm

Number of chambers: 3

Profile Class: B Class (TS EN 12608-1)

Seal Type: External / Internal double seal system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 4, 20, 24, 30, 32 mm

The thermal insulation Uf: 1,56 W/m²K

INSTRUCTION

- The main profile has 60 mm width.
- Because of the elastic grey and black seal which does not leave any stain on profiles will be provided maximum air, water, dust and sound isolation.
- Due to the 3 chambers profiles, it has maximum performance for thermal, sound and water isolation.
- It is a series of profiles with very special design that provides maximum wind resistance on high rise buildings.
- Excluding normal sash profile there is also chance to have a choice for offset type sash profile.
- In addition to white profile a different laminated color range is available.
- 4-5 mm single glazing application of 20, 24, 30, 32 mm glazing beads give us alternatives of using double, triple glazing and panels.

TECHNICAL

W 332 SERIES

Profile Width: 50 mm

Number of chambers: 3

Profile Class: B Class (TS EN 12608-1)

Seal Type: External / Internal double seal system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 4, 20 mm

W 330 SERIES

Profile Width: 50 mm

Number of chambers: 3

Profile Class: C Class (TS EN 12608-1)

Seal Type: External / Internal double seal system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 4, 20 mm

INSTRUCTION

- The main profile has 50 mm width.
- Because of the elastic grey and black seal which does not leave any stain on profiles will be provided maximum air, water, dust and sound isolation.
- Due to the 3 chambers profiles, it has maximum performance for thermal, sound and water isolation.
- In addition to white profile a different laminated color range is available.
- 4-5 mm single glazing application of 20 mm glazing bead give us alternatives of using double, triple glazing and panels.

W 880 MAXIMUM MEASUREMENT

For W 880 series Windows, the maximum installation measurements (width/ height) are written on below chart. The specified measurements can not be exceeded.

Description	White Profile		Colored Profile	
	(A - B) Double Sash	(C-D-E-F) Multi Sash	(A - B) Double Sash	(C-D-E-F) Multi Sash
Width (m)	6 m	6,5 m	5 m	6,5 m
Height (m)	2.7 m	2.7 m	2.4 m	2.4 m
Space of Glass (m ²)	6.5 m ² x 2	-	5.5 m ² x 2	-
Surface Area of Window (m)	16.2 m ²	17,5 m ²	12 m ²	15,6 m ²

The accessories of the system can handle (include also glass) maximum 300 kg. If the sash weight is more than 400 kg it, has to be used necessary accessories for this weight.

TECHNICAL

THERMO SLIDE 770

Profile Width : 140mm Frame, 70mm Sash

Number of chambers : 4

Profile Class : B Class (TS EN 12608-1)

Seal Type : External-Internal double seal system

Seal Type and Color : EPDM -TPE - Grey / Black

Glass Thickness (mm) : 4, 20, 24, 28, 32, 40, 42mm

The thermal insulation Uf : 1,40 W/m²K

INSTRUCTION

Thermo Sliding System, which offers maximum insulation and ease of use by combining large and modern living spaces with full security based on its high security performance, has 140 mm frame and 70 mm wing width. Compared to the existing classic sliding systems with bristle weatherstrip; it has maximum air and water tightness thanks to the inner and outer sealed joint details.

It offers energy efficiency and comfortable living spaces with high thermal insulation, thanks to the application of glass thickness up to 42 mm.

You can create a comfortable living space by combining your garden with your living room, because it can be produced in large sizes up to 6 meters width and 2.5 meters height with its two-partition and four-partition options.

Thanks to the large glass surfaces created, you can feel the wide and spacious views inside your home.

It offers the possibility of use on high floors with the alternatively-designed static, mullion profiles.

With the new generation sliding accessories used in the system, it can be opened and closed without any efforts and does not allow the system to break down due to wrong use.

Due to its system features, it ensures locking with maximum pressure in the frame and wing joints. If you want to ventilate the space, it is possible to ensure ventilation by moving the wing inwards by 4 mm.

Specially-designed laths are available in many options such as 20 mm, 24 mm, 28 mm, 32 mm, 40 mm and 42 mm.

TECHNICAL

W 232 DOUBLE AND SINGLE RAIL SLIDING SERIES

Profile Width: 75 mm double rail frame, 92,5 mm single rail frame and 50 mm sliding system sash profile.

Number of chambers: 3 chambers system

Profile Class: B Class (TS EN 12608-1)

Seal Type: The insulated bristle wick system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 4 - 6, 20, 24 mm

INSTRUCTION

- 75 mm profile width with double railed frame and 92,5 mm width single rail alternative frame and 50 mm width of sash profile.
- Perfect thermal, sound and water isolation because of the 3 chambers system.
- The medium locked sash with a seal system.
- Application of single glaze 4-6 mm and insulating glass 20, 24 mm by grey sealed glazing beads in different thickness.
- Application with roller shutter and without roller shutter choices.
- Wooden designed laminated applications.

ADO ROLLER SHUTTER PROFILE SERIES

- With 190 x 190 mm, 190 x 225 mm, 225 x 225 mm 155 x 155 mm 4 different type of boxes give us possibility to work on desired wall thickness, width and height due to 190 x 225 mm ve 225 x 225 mm boxes, it has a chance to use roller shutter with heat insulation.
- It provides the possibility of installation inside and outside the wall. The installation of blade and maintenance - is possible from inside for all kinds room of renovation.
- It can be applied with motor, remote control and manual cord.
- The sliding rails are available with blade of roller shutter of measurements 37 mm, 39 mm, 42 mm, 50 mm, 55 mm.
